## Account and e-alert management

Your registration account is designed to reflect your needs as an individual. Update and amend your address or other personal details, add subscription information, change your password, or amend your e-mail alert preferences for any Nature Publishing Group product or service.

- My [Nature Publishing Group Journals](#) online account
- For the *British Journal of Pharmacology* please click [here](#)

### E-mail alerts

#### Are you signed up for Nature Publishing Group's e-mail alerts?

E-mail alerts provide you with a time-saving solution to keep abreast of each new online issue of Nature Publishing Group's publications and online services. An e-mail is sent to your inbox at the time of online publication, allowing you to browse the latest content immediately. Packed with information and links, you can easily view those areas of interest to you.

You don't have to be a subscriber to receive these free e-mail alerts, simply [register](#) your details on our website, and you will be invited to specify your e-mail alert preferences. They are available for the following titles and topic groups:

### REGISTRATION NPG web-only resources and e-mail alerting services

Select access to NPG web-only resources and e-mail alerts below.

#### Free access to NPG web-only resources

Nature Publishing Group publishes a growing collection of web-only resources, aimed at specific research communities. Bioentrepreneur, Cancer Update, Drug Discovery@nature.com, Materials Update, Physics Portal, Signaling Gateway all provide highlights of the latest research, technology, and policy developments, from NPG journals and other relevant publications.

Select the resources you are interested in to confirm your *free* online access, as part of your registration to nature.com:

- [Bioentrepreneur](#)
- [Cancer Update](#)
- [Drug Discovery@nature.com](#)
- [Materials Update](#)
- [Physics Portal](#)
- [Signaling Gateway](#)

#### Free E-mail Alerting Services

Choose the tables of contents you want to receive by e-mail from the table below.
