FOR RESEARCHERS -> Free DOI name lookup

The image shows a screenshot of the CrossRef website's 'free DOI lookup' page. The page features the CrossRef logo at the top left and a header image of light bulbs. The main content area is titled 'free DOI lookup' and includes a link to 'Review the terms for using this service.' Below this, a section titled 'CrossRef currently provides a number of ways for you to locate a DOI.' contains a bulleted list of search options. A red box highlights the first two items, and a blue box highlights the third item. A callout box on the right points to the red box with the text '可用已知的書名/期刊名、篇名、作者、卷期、ISSN 等欄位查詢。'. Another callout box points to the blue box with the text '可用「完整參考文獻」進行查詢。'. Below the list, there is a section for 'Bibliographic metadata search' with a brief description and a note about required search criteria. At the bottom, there are radio buttons to 'Limit search to:' (Journal or Book/Conference Proceeding) and input fields for 'First Author' and 'ISSN'.

Review the [terms](#) for using this service.

CrossRef currently provides a number of ways for you to locate a DOI.

- If you have bibliographic data for a item and would like to find the DOI, please use the [metadata](#) section of this form.
- If you only have an article title and author, please use the [article title search](#) section of this form.
- If you have the text of a bibliographic reference, please use our [Simple Text Query service](#).
- If you are a developer and wish to submit a raw XML query use the [XML form](#) section of this page.

**Bibliographic metadata search**

This form is a guest query interface to the CrossRef system for individual DOI retrieval. This interface is not intended for automated batch queries. If you would like to query CrossRef on an automated batch basis, please obtain an account on our system.

You must supply either author or first page and we recommend using journal title as well as ISSN. For a list of journal titles please visit our [browsable journal list](#).

Limit search to:  Journal OR  Book/Conference Proceeding

First Author  ISSN
